

Welcome NDSU Theatre Arts Majors!

This booklet is designed to acquaint each theatre arts major with the philosophy, practices and regulations of the theatre department. Please study it carefully. The handbook is updated annually; any changes to the policies/practices within the academic year will be posted on the theatre listserv as needed.

The student should consult the NDSU ConnectND for general information about university regulations. Your advisor and/or your Theatre Mentor should be able to assist you with any academic or general concerns.

OUR GOAL

The ultimate goal of this Handbook is to insure that the student experience at NDSU and within the Department of Theatre Arts is positive and meaningful. Feedback is encouraged. If you have any questions, feel free to contact any faculty member.

MISSION STATEMENT

The mission of the Department of Theatre Arts is to provide and pursue a variety of high-quality pedagogical, scholarly, and performance experiences in the Dramatic Arts, for the enrichment, education, and entertainment of students and the general public, recognizing both our liberal arts context within a land-grant institution, and the unique capacity of Theatre to foster understanding, acceptance, and appreciation of diverse cultures and individuals.
