2. Grade Input:

- Click the **Roster Grade** drop down box (Figure 4) for each student and use the drop-down to select the student's grade. **Click the SAVE button at the bottom of the page frequently while entering grades.**
- If all students have been graded and saved, change the **Approval Status** from **Not Reviewed** to **Approved** (must save before setting to Approved). Grade rosters may not be set to 'approved' by the instructor if an incomplete grade is pending. These rosters will be set to 'approved' and posted after the 'I' grade is entered by Registration & Records staff.
- Before leaving this page, save your work again by clicking the **Save** button on the lower left of the screen.

3. Grade Changes

- During the grade loading period, if you wish to change a grade after a roster is set to Approved, return to the class roster and change the **Approval Status:** from **Approved** back to **Not Reviewed**.
- Make the necessary grade change(s), and change the **Approval Status:** from **Not Reviewed** to **Approved** and click the **Save** button. The final grades will be posted by the Registrar after the faculty grade loading timeframe has passed.
- Grade changes AFTER the grade loading window has closed must be submitted to Registration and Records, 110 Ceres Hall, on a Grade Reporting Form.

4. Proof Grades

- Important:** Proof your grades before the grade loading time period ends. Make a copy for your records.

5. Grade Posting

- Grades will be posted to students' academic records by Registration and Records at the close of the grade loading time period.
- Students are not able to view grades on Campus Connection until they are posted online.

6. Helpful Hints

- Please Do Not enter any class notes, dates, etc. into Campus Connection as these will appear on the official transcript.
- Return to the **Self Service** and **Faculty Center** pages using the internal links provided. Do not use the back button on the web browser.
- Periodically click the **'SAVE'** button while entering grades, particularly for larger grade rosters (i.e., 10 students). Failure to do so may result in PeopleSoft timing out and a loss of the data entered.
