

ZOOLOGY / BOTANY / BIOLOGY 790
GRADUATE SEMINAR
Van Es 101
Fridays @ 3pm

Fall, 2007

DATE	SPEAKER	Host	TOPIC/TITLE
Sep 7	Susana Peluc Department of Biological Sciences, NDSU	Otte	The Role of Ecological Factors and Microclimate Shaping Nest Site Selection and Reproductive Behaviors in Song Birds
Sep 14	No seminar	-	
Sep 21	Marc Anderson Department of Biological Sciences, NDSU	Otte	Cold Acclimation and Adaptation in Photosynthetic Organisms
Sep 28	No seminar	-	
Oct 5	No seminar	-	
Oct 12	Michelle Imes Department of Biological Sciences, NDSU	Brittany Ziegler	Influence of Land Use and Climate on Breeding Blackbirds in North Dakota's Prairie Pothole Region
Oct 19	Will Clark Department of Biological Sciences, NDSU	Sarah Klein	Life History Variation in White Sucker (<i>Catostomus commersoni</i>) Populations in ND and MN Drainages
Oct 26	Shannon Gaukler Department of Biological Sciences, NDSU	Jill Huwe	Pathogenic Diseases and Movements of Wintering European Starlings Using Feedlots in Central Kansas
Nov 2	Brittany Ziegler Department of Biological Sciences, NDSU	Alison Hagemeister	The role of density in intraspecific relationships of rainbow darters (<i>Etheostoma caeruleum</i>) and its effect on physiology and allostatic load
Nov 9	Marshall Porterfield Purdue University, West Lafayette, IA	Shannon Gaulker	Sensor technology for biological and physiological sensing
Nov 16	Simon Silver University of Illinois, Chicago	Vet. Micro.	The Human Genome, what it means, problems, and our evolution 'Out of Africa'
Nov 23	Thanksgiving weekend		
Nov 30	Peter Allen	Will Clark	Strengthening soft bodies:

**ZOOLOGY / BOTANY / BIOLOGY 790
GRADUATE SEMINAR**

	University of Manitoba, Winnipeg		calcium regulation in a freshwater cartilaginous fish
Dec 7	Laurel Moulton Department of Biological Sciences, NDSU	Michelle Imes	Breeding red-winged blackbird response to "sexy" conspecific models: Exploring the evolution of mating systems
